The National Degree College, Bagepalli. Department of Physics.

Programme learning Outcomes

1. Our most important outcome for all our students is that they enthusiastically engage in learning what is known about the recent developments in Physics and also develop a passion for participating in various activities conducted by the department and gain their knowledge even further.
2. Students should be able to explain how physics applies to phenomena in the world around them.
3. Apart from this the students should additionally be able to recognize how and when physics methods and principles can help address problems I & VI th semester programme
4. They will be provided with tools and methods to approach and solve increasingly challenging problems
5. Students in their I & VI Semester will be given problem solving skills.
5. These problems can be solved by identifying and applying relevant physics laws and principles.
7. Applying mathematical, statistical and computing -all skills to develop solutions.
8. Students are encouraged to take part in seminars/lectureships. In this way they can develop mastery in the particular experimental methodologies.
9. Students will be helped in acquiring data using a variety of laboratory instrumentation.

Professional Skills

- The department will help in the students in developing their professional skills which include effectively communicating via oral, visual and written formats and audience.
- Students will provide an opportunity to interact with the physicist, resource persons, to acquire their skills in pursuing professional courses.
- The department will also provide an opportunity to the students in developing and enacting plans to acquire new knowledge or expertise.

Introduction

The NIP 2020 offers an opportunity to effect paradigm shift in higher education system in the Indian context. Catering to provide skill based education wherein the graduate students can attain required skills. The Sociology curriculum is designed to provide a comprehensive foundation for a degree in BA (Honours) Sociology to successfully pursue further studies and research in the discipline so that they can thrive in knowledge based society. The curriculum framework is designed taking into account the global competitive standards. This course serves as a platform for students to gain expertise in the field and make use of the opportunities right from foundational course to application of the subject.
